August 2014

Last month we had **CINEMA WEDNESDAY**, presented by Tim B & Stew. It was a short film on counterfeiting followed by Pizza delivered hot by our President. Thanks to Martin, who supplied a cooler at the last minute, we also had cold drinks!

Following the pizza, Stu set up 8 coins and asked us which were real and which were counterfeit. The coins were a 1932 D Washington quarter, a 1916 D Mercury dime, a 1942 D Walking Liberty Half, a 1883 Gold colored V Nickel, a 1944 Jefferson Nickel, a 3rd century roman coin, a 1986 Liberty Commemorative Dollar and an 1898 Morgan Dollar. Most of us said all were fakes, but Stu threw us a curve, the Roman Coin was real. We'll take his word for it since Caesar isn't available for verification.

AUGUST PROGRAM: Metal detecting and treasure hunting. Our newest member Bob will be presenting a program on metal detecting and treasure hunting. Bob has extensive experience in this area and teaches classes on metal detecting.
